TO

SIR,

I have the honour to submit the Annual Administration Report of the Janjira State including Jafarabad, a dependency of this State in Kathiawar, for the year ending 31st March 1909.

CHAPTER I.—GENERAL AND POLITICAL.

2. The territory of the Janjira State excepting Jafarabad lies to the south of Bombay. Its area is ~~324~~ square miles and its population is ~~85,414~~ according to the census of 1901. The Gross Revenue calculated on an average of the last five years is Rs. 4,73,838.

The dependency of Jafarabad is situated in the extreme south of Kathiawar. Its area is 53 square miles and its population 12,097 souls. Its Gross Revenue is Rs. 60,661.

3. The State pays no tribute to the British Government or to any State, but receives 360 *Rayals* as tribute from the Junagadh State in Kathiawar.

4. Ruling Chief :—*His Highness Sidi Sir Ahmed Khan Sidi Ibrahim Khan, G. C. I. E., Nawab Saheb of Janjira*, aged 47 ; Suni Mahomedan ; has no heir, natural or adopted ; had first married in 1882, the sister of the then Nawab Saheb of Savanur and has, after her death, intermarried in 1886 with the family of Mr. Hussan Alli Faizhyder of the well-known Tayabji family of Bombay.

5. The most noteworthy event of the year under report was His Highness the Nawab Saheb's tour in Europe in company with Her Highness the Begum Saheba. As mentioned in the last year's report, their Highnesses with a party consisting of 6 persons left Bombay for England on the 25th April 1908, and reached London on the 11th May, when the season there was in full swing. Shortly after their arrival in London, a private visit to pay homage to their Majesties was arranged through Sir W. Curzon Wyllie, K. G. S. I., of the India Office and their Majesties were graciously pleased to extend to their Highnesses a private audience

in the Buckingham Palace. They had also private audiences with some of the members of the Royal Family. Their Highnesses' visit to England coincided with that of President Falliérés and thus they had an opportunity in taking part in some of the Royal Functions, particularly the State Ball, held in honour of the President of the French Republic. Their Highnesses had also the honour of being present in the Garden Party held at Windsor Castle given by His Majesty. His Highness the Nawab Saheb paid an official visit to the Secretary of State for India, who invited their Highnesses to his country-house for tea where they passed the time most pleasantly in his company. Their Highnesses had also the pleasure of renewing their friendship with Lord and Lady Reay, Lord Lamington, Sir William Lee-Warner and Justice Jardine. As arranged by Sir William Curzon Wylie, who was all along found most obliging and exceedingly polite, their Highnesses took the opportunity of seeing some of the most prominent places in London, such as the Houses of Parliament, the Royal Mint, the various Museums, the Bank of England and the Woolwich Arsenal. Their Highnesses also visited the Franco-British Exhibition then held in London. Throughout the whole period of their stay in London they were most favourably impressed with the hospitality and kindness which they received wherever they went. After having thus pleasantly enjoyed their stay there for about a month and a half their Highnesses left for Paris on the 25th of June. They remained there for a little more than a month, during which period they visited most of the prominent places of interest and had also attended the President's Garden Party and the Grand Military Review held on the Anniversary day of the French Republic. Their Highnesses had also an opportunity of visiting the French Parliament. Their Highnesses thence went to Montreux and from there to Geneva where they stayed for a few days. They afterwards proceeded to Vienna and thence to Constantinople which is the birth-place of Her Highness. There, through the British Ambassador, His Highness visited His Majesty Abdul Hamid Khan Sultan of Turkey who gave them a hearty reception in the Palace of Yildiz. His Majesty also conferred upon His Highness the First Order of Usmanli and upon Her Highness the unique honour of the First Order of Shaffakat Nishan, never bestowed before upon an Indian Princess. Their Highnesses stayed at Constantinople for about a month, and left for Egypt on the 21st September. After a short rest there, they sailed back for India from Port Said on the 30th September and arrived in Bombay on the 9th October last. On landing at the Apollo Bundar, their Highnesses were most enthusiastically received by their Bombay friends, Khanjadas, Bhaibands, high Officials of the State, and the prominent citizens of Janjira and Jafarabad. After a short stay in Bombay, their Highnesses returned to Janjira on the 19th October, and reached Murud at about 5 p.m. the same day, when a salute of 11 guns from the Janjira Fort Battery announced to the great joy and happiness of their Highnesses' subjects the arrival of their beloved Chief and his consort in their midst after an absence which had

appeared to them very long. A large number of persons representing all classes of the people of Habsan had gathered at Murud-Janjira, in a huge Mandap specially erected for the reception of their Highnesses. On landing at the bundar, their Highnesses were received by a deputation consisting of the principal Khanjadas, Bhaibands, Officers, Merchants, etc., and were conducted to their seats in the Mandap, where their Highnesses were given a most hearty and enthusiastic welcome by the representatives of the public bodies and the general public. After the presentation of Addresses from the Municipal Bodies and the Local Board, His Highness made a short and appropriate speech in which he alluded to the then disturbances in Bombay and impressed upon his subjects their duty to be ever loyal to the British Crown, under whose protection India has been enjoying peace and prosperity. This auspicious occasion was signalized by His Highness by the grant of rewards to the State servants and by remissions and reductions of sentences of some of the prisoners.

6. During the year under report, His Highness paid three short visits to Bombay. Of these, the first was in December, the second in January and the third in February last.

7. Friday the 23th of June 1908, being appointed for the celebration of the birth-day of His Most Gracious Majesty the King-Emperor, was observed as a public holiday throughout the State. The Police paraded in the Palace compound and a *feu-de-joie* was fired. A Royal salute of 31 guns was fired from the saluting battery in the Janjira Fort, and after the usual Darbar, the Khanjadas, Bhaibands, Janjirkars and Chhorwads, who reside in the Janjira Fort, assembled in the Juma Masjid and offered prayers for the long life and prosperity of His Majesty and of their kind Chief, the Nawab Saheb Sidi Sir Ahmed Khan, who was then in England. Alms were distributed to the poor.

8. The second day of November 1908, being the 50th anniversary of the assumption of the Government of India by the British Crown was celebrated in Janjira, with great *eclat*. The day was observed as a public holiday throughout the State. A parade of the State Signallers and of the Police took place when a *feu-de-joie* was fired. Some prisoners were released from the Jail, while some others had their sentences reduced. Sweet-meats were distributed to school children and alms were given to the poor.

9. His Excellency the Governor of Bombay in company with the late lamented Miss Clarke was pleased to favour the State with an informal visit in December last. They visited the Janjira Fort and the Royal Palace.

10. No domestic event worthy of report, occurred in His Highness the Nawab Saheb's house-hold during the year.

11. The most sad and much regretted deaths of Lady Clarke and Miss Clarke were the occasions of extreme grief to their Highnesses the Nawab Saheb and the Begum Saheba. On both these occasions all public offices and schools in the State were closed.

12. You were pleased to visit the State in the month of March last

13. Captain S. Morton, Inspector of Signalling, Imperial Service Troops, Meerut, visited the State in connection with the Imperial Service Troops in October last. Cavalry and Transport, Gwalior, in company with his Assistant, Captain Pitcher in March last.

14. The *personnel* of the administration remained unchanged except in the case of the State Engineer and the Sub-Judge. Further particulars in this connection are given in Appendix I.

As the State of Janjira has been ranked among the First Class States, His Highness the Nawab Saheb has been pleased with the approval of Government to alter the designation of the Office I hold from that of "State Karbhari" to that of "Dewan."

15. There are no Residency Officials in the State.

One person was also delivered to the State Authorities at Jafarabad by the Dedan State. No necessity arose during the year for making a demand by the State on the British Authorities.

In the matter of extradition there was no want of reciprocity on the part of the neighbouring States or the British Districts.

PRISONS.

41. There is a Central Jail at Murud under the superintendence of the Chief Medical Officer of the State and a resident Jailor. The building, which is two-storied at its entrance, is strong and commodious. It has 14 cells and 2 wards with kitchen rooms for the male, as well as for the female convicts. The Jail Guard is placed at the entrance on its first floor, the second floor being used for office purposes.

As detailed in Appendix XIII, the total number of prisoners in the Jail including 9 remaining at the close of the last year, was 30, of whom 14 were released on the expiry of the terms of their imprisonment and 7 as an act of clemency during the year under report. Out of these 7, 6 were set at liberty on the occasion of His Highness the Nawab Saheb's safe return here from his tour in Europe and 1 on the occasion of the celebration of the 50th anniversary of the assumption of the Government of India by the Crown. Reductions of sentences were also granted to well-behaved

prisoners on both these occasions. At the close of the year there remained only 9 prisoners in the Jail. In the latter lock-ups, 7 prisoners sentenced to such short terms of imprisonment and 12 under-trial prisoners were admitted during the course of the year. In the lock-up at Murud 4 under-trial prisoners were located. In addition to these, 17 under-trial prisoners including one remaining at the close of the last year were confined in the Central Jail. The fall was a little below normal but the distribution thereof was almost seasonable. The average yield of Rice, Varkas, Rabi and Hemp crops was annas 10, 9, 9 and 6 in the rupee respectively, taking the average standard of the normal crop to be annas 12. The chief products of the garden lands were cocoa-nut and betel-nut, both of which were on an average good.

In Jafarabad, the monsoon set in on the 16th June 1908, the total rainfall there being 26·48 inches against 21·28 in the previous year. The fall was unseasonable at the outset and insufficient in the latter part of the season, and in consequence thereof the crops suffered to an appreciable degree. The average yield of Bajri and Jwari was annas 6 each, and of Sesamum annas 4½ and of Cotton annas 3, taking the average standard of the normal crop to be annas 12. The expenditure was Rs. 9,083-0-9 against Rs. 8,532-7-9 in the preceding year. The increase under receipts was mainly due to the one-fourth of the price of the sale of the right to collect myrobolans in the State forests for a period of three years having been realised during the year.

Free grants of timber for the re-building of houses, destroyed by fire, were made to the value of Rs. 640-2-5 during the year against Rs. 285 in 1907-1908. Similarly to meet the agricultural and public wants, wood of the value of Rs. 216-10-10 was granted free of cost against Rs. 431-2-1 last year.

The cultivation of Teak, Ayan, Bamboo, Bherli-palm, Myrobolans, Mango, Tamarind, and other trees was made wherever possible, and every care is being taken to help their growth.

During the year under report the forest offences numbered 64 against 51 in the previous year. Of these, 62 were disposed of departmentally by fines and 5 persons concerned in the remaining two were criminally prosecuted and found guilty.

The number of forest fires was 7, but they were not of a destructive nature and did not cause much damage.

No timber trees are to be found in the jungles in the Jafarabad Taluka. There are only small Babul and Gorad trees, growing here and there and great care is taken to protect these as well as trees growing in the waste lands. The income and expenditure during the year were Rs. 65-13-3 and Rs. 193-8-0 against Rs. 53-3-6 and Rs. 175-11-11, respectively last year. No forest offence was reported during the year under report.

The articles exported were chiefly firewood, timber, paddy, dried fish, betel-nut, cocoa-nut and myrobolans, whereas those imported consisted principally of grains, tobacco, metals, cotton and woollen stuff, ghee and oils, sugar and molasses, salt, liquors and spices.

The imports of Jafarabad were Rs. 3,00,940 against Rs. 3,95,880, and the exports Rs. 3,18,130 against Rs. 4,21,444 in 1907-1908. The articles exported principally consisted of cotton, grains, ghee, dried fish, and chunam, and those imported chiefly consisted of rice, grains, cotton and woollen stuff, metals, firewood, timber, sugar, molasses and kerosine oil.

50. There are no factories in this State, except some local industries such as the weaving of *sarees* by hand-looms, making of iron, copper, tin and stone-ware, furniture, wicker-work and earthen-ware and native shoes of inferior kind. These handicrafts produced articles worth about Rs. 30,271 against Rs. 34,036 last year. They were all consumed locally. 52. In this part of the State, there are about 100 miles of road which connect with each other almost all the large towns and markets. Out of the total amount of Rs. 10,566-0-10, shown as expended under the head "Communications Janjira," Rs. 3,063-9-0 were spent on extensions of the old roads and in putting metal on the 16 miles of the main road between the town of Murud and Borlai, and Rs. 7,502-7-10 in making special and ordinary repairs to all other existing State and Local Fund roads.

53. During the year under report some of the Public Buildings which had been taken in hand in previous years, were completed, *viz.*, Record Rooms for the Sar Nyayadhish's and Munsiff's Courts, Police Line at Mhasla and Quarters for the Palace servants. Additions to the Dispensary Building in the Fort and to the Murud Mahal Cutchery were also completed, while those to the old Palace Building in the Fort were in progress. A suitable site for a new building which is to be built for the High School was purchased at a cost of Rs. 2,000. The erection of a few new buildings such as Out-houses to the Murud Hospital, a *post mortem* room for the Mhasla Dispensary, Customs Inspector's Office and Record Room, a Guest House to the Palace, were also commenced during the year. The total cost on this account was Rs. 33,833-6-9 and is shown under the head "Public Buildings." 55. Six new wells were sunk during the year, four of which were completed. These and the completion of some of the wells sunk last year and the repairs to six old ones, and the maintenance of the Victoria Water Works, cost the State Rs. 4,631-8-3, under the head "Water Supply." Rs. 1,047-7-0 were spent on "Petty Works," Rs. 1,234-1-6 on "Reclaimed Salt Marshy Lands," as shown in Appendix XIX. In addition to the above, the Public Works Establishment cost the State a sum of Rs. 6,591-9-3.

All these are British Post Offices and work under the direct control of the British Government.

(g)—MINT.

58. His Highness the Nawab Saheb possesses coinage rights but there are no mints at present in the State.

(h)—GENERAL CONDITION OF STATE AND PEOPLE.

59. The rainfall here amounted to 99·28 inches. It was somewhat below the normal. But as it was well-distributed throughout the season the average out-turn of all the crops was not bad.

In Jafarabad the rainfall was 26·48 inches, being above the normal. But as it was not seasonable and well-distributed, all the crops especially Cotton and Sesamum suffered considerable damage.

There was no plague or any other kind of disease of an epidemic character in any part of the State including Jafarabad during the year under report. The public health was on the whole good.

There was no marked decline in the prices of food-grains here as in Jafarabad. This, however, did not cause any suffering to the cultivating and labouring classes, as they could get sufficient employment on public works and in the forests sold out for cutting. Takavi advances to the extent of Rs. 4,225 also helped the former class to a certain extent and the condition of the people in general was satisfactory.

There was a little fluctuation in the rates of wages for skilled and unskilled labour.

The birth and death rates here were a little higher, whereas in Jafarabad the former was higher and the latter lower.

There was nothing worthy of special mention regarding agriculture in the State.

The details of agricultural stock are given in Appendix XX. The stock was sufficient and in good condition. No cattle disease prevailed during the year. Fodder rose in price, but was adequate. Water was plentiful.

The introduction of the Survey Settlement dates from 1898-1899. The assessment was in most cases punctually and easily paid. No land was relinquished by any ryot.

There was a falling off in local industries which fell in value by Rs. 3,765. The import and export trade in this part of the State fell by Rs. 27,591 and by Rs. 39,336, respectively. In Jafarabad, the import trade fell by Rs. 94,940 and the export trade by Rs. 1,03,314. This state of things was due to the total absence of the celebration of marriages this year.

The immigrations and emigrations here numbered 3 each, against 12 and 15, while those at Jafarabad, 23 and 8, against 23 and 10 respectively last year.

There was an increase of Rs. 10,370-15-1 in the Excise Revenue in this part of the State. The increase was due to higher bids obtained at the auction sale, to a greater number of trees given for tapping and the recovery of refund of Still-head duty on Mowra spirit. The quantity of liquor consumed was 5,823 gallons and 1 pint of 25° U.P. and 4,113 gallons and 1 pint of 60° U.P. as against 5,535 gallons and 5 pints and 3,713 gallons, respectively last year.

The Excise Revenue in Jafarabad amounted to Rs. 12,596-11-1 against Rs. 13,080-1-2 last year. The quantity of liquor consumed was 2,674 gallons of 25° U. P. and 5,571 gallons of 60° U. P. as against 2,125 gallons and 6,153 gallons, respectively last year.

CHAPTER—V.

as given in Appendix XXII, regarding the total gross receipts and disbursements of the State during the year under report.

61. From the above it will be seen that there was in this part of the State a marked increase in receipts under the items A, B and C and decrease under the item H. The increase under A was mainly due to the fact that it included the sale proceeds of the occupancy rights in some lands belonging to the State. The causes of increase under B and C have been given in paras 48 and 59 respectively of the report. The reason for the decrease under H was that there was less amount of Postal Deposits received in the State Treasury this year than the year before.

62. From the above table it will be observed that there was a marked increase in disbursements under the heads C, F and M, in this part of the State. The increase under C was partly due to more toddy purchased for distillation and partly to grain compensation paid to State servants on account of high prices of food-grains. It is also to be attributed to the purchase of signalling stores for the Infantry Signalling Unit and to the fact that the adjustment of the Salt Contractor's account regarding salt provided for 1907-1908 was made during the year under report. The increase under F was due to His Highness's tour in Europe. The increase under M was the result of the disbursement of large amounts of deposits and loans from the State Treasury during the year.

63. In Jafarabad there was a noticeable increase under C—Administration, which was mainly due to the compensation awarded by the State on account of acquisition of certain rights of an Inamdar.

CHAPTER VIII.—MISCELLANEOUS.

PRINTING PRESSES.

97. There are 2 small private printing presses at Murud in which the work of printing Official forms and other job-work of the value of Rs. 1,798-11-4 was done during the year under report.

LIBRARIES.

98. There are in all 3 libraries in the State—1 at Murud, 1 at Shrivardhan and 1 at Jafarabad. All of them receive contributions from the State and are well conducted.

EXTERMINATION OF POISONOUS SNAKES AND WILD ANIMALS.

99. Rules regarding the destruction of poisonous snakes and wild animals are in force in the State. The number of poisonous snakes destroyed during year under report was 73 against 86 in the previous year. 29 wild animals were killed during the year as against 43 last year. Of these 24 were killed by His Highness the Nawab Saheb. The sum paid as reward in this respect was Rs. 31-10-6 against 14-6-6 last year.

STATE RECORDS.

100. The Survey and other important records of the State are preserved under the supervision of the Dewan in a Record Room specially built for the purpose near his Office. Tehsil records are kept at their respective head-quarters under proper precautions. The rules for the systematic classification and preservation of useful records as well as for the periodical destruction of those that have been useless have been properly observed.

The important records of the Jafarabad Dependency are preserved at Jafarabad under the supervision of the Mamlatdar there.

LIGHTHOUSES.

101 There is a Lighthouse at Nanoli off the Rajpuri point, where an occulting fourth order dioptric light, with intervals of 10 seconds "light" and 5 seconds "dark" is exhibited. The Light was maintained in an efficient state during the year. The Lighthouse was visited and inspected by the Coast Guard Inspector Alibag Beat, and by the Overseer, P. W. D., Ratnagiri and was found in good order. The total expenditure under this head was Rs. 1,218-8-2 during the year against Rs. 924-5-1 in 1907-1908.

In Jafarabad there is also a Lighthouse at the entrance of the creek where a fourth order dioptric revolving light is exhibited. It was visited in September last by the Senior Inspector, Coast Guard Service, N. D., under the instructions of the Assistant Collector of Salt Revenue in charge, Coast Guard Service, Bombay, with a view to alter its character so as to remove all possibility of confusion with the Light exhibited at Div, as desired in your endorsement, No. 3173, dated the 4th July 1908. It was again visited and inspected in this connection by the Assistant Collector himself in February last and finally by a Light specialist of the firm of Messrs. Dixon and Co., Bombay, in order to ascertain the cost of the work of altering its character and doing necessary repairs to it. a final estimate regarding which, for Rs. 951, was received in May last. But as it was not then practicable to remove the mechanism of the Light to Bombay owing to the fair season being at it its close, it has been arranged with the Assistant Collector to commence this work early in the next fair season. The Light has since September last been worked with a hand gear as advised by the Assistant Collector at a speed required to give the period of 20 seconds and this arrangement will be continued until September next when it is arranged to exhibit an ordinary sixth order dioptric lantern until the Light is properly repaired and restored to its place. The total cost of the maintenance of the Lighthouse was Rs. 1,105-6-7 during the year under report against Rs. 1,612-2-10 in 1907-1908.

REVENUE ACCOUNTS.

102. The accounts are kept as far as possible in Symond's forms of accounts and are efficiently checked and examined. No fraud or any serious error was discovered during the year under report.

CONCLUSION.

103. His Highness the Nawab Saheb enjoyed good health and continued to devote his uninterrupted attention to the direction of the affairs of the State.

104. In conclusion I beg to acknowledge most gratefully the ready assistance and valuable advice His Highness's Government always received from you and from the Political Agency, in Kathiawar, in guiding the administration of the State.

I have the honour to be,

No. 774 OF 1910.

DEWAN OFFICE,

MURUD-JANJIRA, 6th June 1910.

FROM

RAMCHANDRA G. PRADHAN, ESQUIRE,
DEWAN OF JANJIRA ;

TO

J. K. N. KABRAJI, ESQUIRE,
COLLECTOR AND POLITICAL AGENT,
KOLABA, (JANJIRA).

SIR,

I have the honour to submit the Annual Administration Report of the Janjira State including Jafarabad, a dependency of this State in Kathiawar, for the year ending 31st March 1910.

CHAPTER I.—GENERAL AND POLITICAL.

2. The territory of the Janjira State excepting Jafarabad lies to the south of Bombay. Its area is 324 square miles and its population is 85,414 according to the census of 1901. The Gross Revenue calculated on an average of the last five years is Rs. 4,93,295.

The Dependency of Jafarabad is situated in the extreme south of Kathiawar. Its area is 53 square miles and its population 12,097 souls. Its Gross Revenue is Rs. 60,918.

3. The State pays no tribute to the British Government or to any State, but receives 360 *Rayals* as tribute from the Junagadh State in Kathiawar.

4. Ruling Chief:—*His Highness Sidi Sir Ahmed Khan Sidi Ibrahim Khan, G. C. I. E., Nawab Saheb of Janjira*, aged 48 ; Suni Mahomedan ; has no heir, natural or adopted ; had first married in 1882, the sister of the then Nawab Saheb of Savanur and has, after her death, intermarried in 1886 with the family of Mr. Hussan Alli Faizhyder of the well-known Tayabji family of Bombay.

5. During the year under report His Highness paid three short visits to Bombay. Of these, the first was in October, the second in November, and the third in December last.

6. No domestic event worthy of report occurred in His Highness the Nawab Saheb's household during the year.

7. Mr. Otto Rothfeld, Acting Collector and Political Agent was pleased to visit the State in December last.

8. Captain S. Morton, Inspector of Signalling, Imperial Service Troops, Meerut, and Lieutenant-Colonel Grimston, Inspecting Officer, C. I. States, I. S. Cavalry and Transport, Gwalior, in company with his Assistant, Captain Pitcher, visited the State in February last, in connection with the inspection of the Infantry Signalling Unit. The State was also visited by the Educational Inspector, Southern Division.

9. The *personnel* of the administration remained unchanged except in the case of the State Engineer and the Sub-Judge. The particulars in this connection are given in Appendix I.

10. There are no Residency Officials in the State.

11. The most lamentable news of the death of His Most Gracious Majesty King Edward VII, Emperor of India, was received on the 8th of May 1910, with the greatest grief and distress throughout the State. The flag flying at the Kasre Ahmed Palace was half masted. All social events were cancelled and altogether the whole State went into deep mourning. All the public offices, schools, libraries, shops and markets were closed for three days out of respect to the memory of the most beloved Sovereign. His Highness the Nawab Saheb conveyed by wire through you his own and his Sardars' most loyal and heart-felt condolence and sympathy to the Royal Family for the irreparable loss they sustained. The Acts in force in the State are enumerated in Appendix II.

MILITARY FORCE.

20. The total strength of the Military Force during the year was 217, as particularised in Appendix III, against 219 in 1908-1909. It consisted of 27 Fort Garrison, 14 Gunners and 176 other Irregulars. They are all Sidi Sardars, Habshi Bhaibands, Janjirkars and Chhorwads. Some of these men carry old fashioned swords, while others have got old match-locks of native manufacture. They have received no regular military training and are not consequently fit for any active service.

Their duties are only confined to the Fort of Janjira where they live mostly in their family houses. They are employed in protecting the Fort and in attending the Darbars. The cost to the State on account of this Force was Rs. 27,043-5-3, against Rs. 31,279-14-3 in the previous year. The notable decrease in the annual expenditure of the maintenance of these Habshi Bhaibands, etc., is mainly due to the most considerate and compromising arrangement, made by His Highness the Nawab Saheb in introducing fixed commutation rates for the Sanads which used to be paid in kind, as reported in para 19 of the Administration Report for the year 1905-1906. It is to be noted in this connection that the State has been making efforts in providing for the deserving young boys of these hereditary Military Officers appointments in the regular working Departments of the State.

In Jafarabad, the Military Force consisted of 12 men against the same number in the previous year. They were all Irregulars. The cost of the maintenance of this Force was Rs. 931-3-1 against Rs. 912-2-2 in the preceding year.

The two men who were sent to attend the 4th Class for the training of Assistant Instructors held at Kiyarighat last year, returned here on the 1st of July 1909. Being fully qualified to serve as Assistant Instructors in Signalling, they have been since that date employed to impart instruction in Signalling. The Certificates awarded by the Inspector-General of Imperial Service Troops were presented to them in the Darbar held on the occasion of the birthday of His Highness the Nawab Saheb in March last. Gold embroidered head-dresses were also presented to them on this occasion and His Highness expressed his great joy at the success attained by these two fortunate Bhaiband boys.

The Signalling Instructors Duffadar Shaikh Mahomad Naim and Havildar Hashmat Ali Khan, his Assistant, whose services were kindly placed at the disposal of this State by the Gwalior Darbar, as stated in para 25 of the last year's report, were relieved of their duties and allowed to go back to their State. Duffadar Ahmed Ali Khan of the Gwalior Darbar continued to impart to the Unit instruction in Drill and

Musketry. Naib Duffadar Vali Ahmed Khan, whose services have also been lent by the Gwalior Darbar as Armourer, reported himself here on the 28th September last and has been in charge of the Armourer's shop with two apprentices under him.

The Signallers were examined by Captain Morton in February last, when he found the Unit A of the Janjira Signalling Corps (2 Assistant Instructors and 16 men) complete and the remaining 6 men forming the nucleus of Unit B which is in process of formation. Out of the 10 men who took part in the Inspection tests, 9 succeeded in qualifying as Second Class Signallers. They have each been granted an extra monthly signalling pay of Rupee one from the 1st of March last.

The expenditure incurred on account of pay, cost of Signalling Stores, etc., of the Unit, during the year of the report was Rs. 8,323-6-3 against Rs. 6,346-0-3 in the previous year. The increase of Rs. 1,980-6-0 was mainly due to the erection of a Rifle Range during the year under report.

(c)—FORESTS.

44. The Forest Establishment consisted of one Inspector, 3 Rangers, 13 Round-Guards and 42 Beat-Guards.

The State Forests have been divided into 30 blocks, and only such forests as were due for cutting were sold during the year. The receipts under this head were Rs. 75,034-10-11 during the year under report as against Rs. 94,928-15-2 in 1908-1909, showing a decrease of Rs. 19,894-4-3. The expenditure was Rs. 9,111-10-4 against Rs. 9,083-0-9 in the preceding year. The decrease under receipts was mainly due to the one-fourth of the price of the sale of the right to collect myrobolans in the State forests for a period of three years, having been realised during the previous year.

Free grants of timber for the re-building of houses destroyed by fire were made to the value of Rs. 473-13-9 during the year against Rs. 640-2-5 in 1908-1909. Similarly to meet the agricultural and public wants, wood of the value of Rs. 284-4-1 was granted free of cost against Rs. 216-10-10 last year.

The cultivation of Teak, Ayan, Bamboo, Eherli-palm, Myrobolans, Mango, Tamarind and other trees was made wherever possible and every care is being taken to help their growth.

During the year under report the forest offences numbered 48 against 64 in the previous year. Of these, 47 were disposed of departmentally by fines and two persons concerned in the remaining one, were criminally prosecuted and found guilty.

The number of forest fires was 12, but they were not of a destructive nature and did not cause much damage.

No timber trees are to be found in the jungles in the Jafarabad Taluka. There are only small Babul and Gorad trees growing here and there and great care is taken to protect these as well as the trees growing in the waste lands. The income and expenditure during the year were Rs. 31-7-0 and Rs. 197-9-6 against Rs. 65-13-3 and Rs. 193-8-0 respectively last year. There was only one forest offence reported during the year.

(d)—TRADE AND MANUFACTURES.

45. The import trade of Habsan was Rs. 5,47,607 against Rs. 5,58,989, whereas, the value of exports was Rs. 4,63,412 against Rs. 4,20,851 in 1908-1909. The articles exported were chiefly fire-wood, timber, paddy, dried fish, betel-nut, cocoa-nut and myrobolans, whereas, those imported consisted principally of grains, tobacco, metals, cotton and woollen stuff, ghee and oils, sugar and molasses, salt, liquors and spices.

The imports of Jafarabad were Rs. 3,46,832 against Rs. 3,00,940 and the exports Rs. 2,37,726 against Rs. 3,18,130 in 1908-1909. The articles exported principally consisted of cotton, grains, ghee, dried fish, and chunam, and those imported chiefly consisted of rice, grains, cotton and woollen stuff, metals, firewood, timber, sugar, molasses and kerosine oil.

46. There are no factories in this State except some local industries, such as the weaving of *sarees* by hand-looms, making of iron, copper, tin and stone-ware, furniture, wicker-work and earthen-ware and native shoes of inferior kind. The articles produced by means of these handicrafts, which were worth about Rs. 32,630 during the year under report as compared with Rs. 30,271 last year were all consumed locally.

In Jafarabad woollen blankets, coarse cotton cloth and native shoes are made for local consumption.

(e)—PUBLIC WORKS.

47. The total expenditure during the year under report on Public Works in this part of the State was Rs. 57,889-5-9 as detailed in Appendix XIX as against Rs. 75,896-8-3 in 1908-1909.

48. In this part of the State there are about 100 miles of road which connect with each other almost all the large towns and markets. Out of the total amount of Rs. 7,509-2-11, shown as expended under the head "Communications Janjira" Rs. 2,144-8-5 were spent on extensions

of the old roads, and in purchasing metal for the 16 miles of the main road between the town of Murud and Borlai, and Rs. 5,364-10-6 in making special and ordinary repairs to all other existing State and Local Fund roads.

49. During the year under report some of the Public Buildings which had been taken in hand in previous years were completed, viz. Out-houses to the Murud Hospital, a *post mortem* room for the Mhasla Dispensary, Customs Inspector's Office and Record Room and a Guest House to the Palace. A Line for servants at Kasa Fort, a Petrol Shed near the Palace, Cattle-Pounds at Dongri and Kharsai were also erected during the year. Additions and alterations to the quarters of the Janjira Signalling Unit and to those of the Subhedar at Kasa Fort and to the old Palace Building in the Janjira Fort were also commenced and completed during the year. The erection of a few new buildings such as a Motor House, a grass shed for the stables, and a fuel shed in connection with the Palace kitchen were also commenced during the year. The total cost on this account was Rs. 23,821-9-11 and is shown under the head "Public Buildings." A further sum of Rs. 13,235-7-6 was spent for special and annual repairs to all other Public Buildings in the State.

50. In addition to Rs. 10,114-9-10 spent in constructing the water works for the town of Mhasla, a sum of Rs. 762-14-2 was spent during the year under report for the erection of stand-pipes and for the maintenance of the said water works.

51. The completion of the two wells sunk last year and repairs to 4 old ones and the maintenance of the Victoria Water Works cost the State Rs. 2,225-0-1 under the head "Water Supply." Rs. 734-12-5 were spent on "Petty Works," Rs. 2,047-12-6 on "Reclaimed Salt Marshy Lands," as shown in Appendix XIX. In addition to the above, the Public Works Establishment cost the State a sum of Rs. 7,552-10-3.

52. In the Dependency of Jafarabad the total expenditure on Public Works during the year under report amounted to Rs. 2,931-5-5. Out of this amount Rs. 711-15-7 were spent on roads, Rs. 909-2-2 were spent on Public Buildings, Rs. 20-15-3 on petty works and Rs. 1,276-12-5 on Establishment, etc.

(f)— POST OFFICES.

53. There are two combined Sub-Post and Third Class Telegraph Offices in the State. One of these is at Murud and the other at Jafarabad. There is also a Sub-Post Office at Shrivardhan. In addition to these, there are Branch Post Offices at Mhasla, Borlai-Panchatan, Borlai-Mandla,

Nandgaon, and Hareshwar. All these are British Post Offices and work under the direct control of the British Government.

(g)—MINT.

54. His Highness the Nawab Saheb possesses coinage rights but there are no mints at present in the State.

(h)—GENERAL CONDITION OF STATE AND PEOPLE.

55. The rainfall here amounted to 110.80 inches. It was normal and its distribution was almost seasonable. The average out-turn of all the crops was on the whole good.

In Jafarabad the rainfall was 21.31 inches. But as it was not well distributed, all the crops, especially the Cotton crop, suffered to a certain extent.

There was no plague or any other disease of an epidemic character in any part of the State including Jafarabad during the year under report. The diseases most prevalent were malarial fevers, dysentery, worms, rheumatic affections, debility and anæmia, diseases of the nervous and respiratory systems, dyspepsia, diarrhoea, eye and ear diseases, diseases of the digestive system and skin diseases. The public health was on the whole good.

The prices of food-grains here as well as in Jafarabad were lower than those of the preceding year. There was sufficient employment for the cultivating and labouring classes on the Public Works and in the forests sold out for cutting. Takavi advances which were granted to the extent of Rs. 3,600, were also of some help to the agriculturists and the condition of the people in general was satisfactory. There was a little variation in the rates of wages of skilled and unskilled labour.

During the year under report the birth rate was a little higher and the death rate a little lower than those in the preceding year.

During the year under report 542 acres and 17 gunthas of waste land were brought under cultivation. Besides this there was nothing worthy of special mention regarding agriculture in the State.

As shown in Appendix XX, the agricultural stock was generally sufficient and in good condition. In this part of the State the number of cattle increased from 29,676 to 29,858 and that of sheep and goats from

6,375 to 6,517. In Jafarabad the former showed an increase of 346 and the latter a decrease of 484.

No cattle-disease prevailed during the year. The supply of fodder and water was sufficient.

The Survey Settlement rates have been in force since 1898-1899. The assessment was in most cases punctually and easily paid. No land was relinquished by any ryot.

Local industries showed an improvement during the year and rose in value by Rs. 2,359.

The import and export trade in this part of the State decreased by Rs. 11,382 and increased by Rs. 42,561 respectively. In Jafarabad the import trade rose by Rs. 45,891, while the export trade fell by Rs. 80,403.

There were neither immigrations nor emigrations here during the year under report. In Jafarabad the number of immigrations and emigrations during the year under report was 10 and 1 against 23 and 8 respectively last year.

There was a decrease of Rs. 10,776-11-11 in the Excise Revenue in this part of the State. The decrease was mainly due to the fact that there was no amount of refund received from the British Government of still-head duty on Mowra Spirit as it was not imported into the State during the year under report.

The quantity of liquor consumed was 5,847 gallons of 25° U.P. and 4,701 gallons of 60° U. P. as compared with 5,823 gallons and 4,113 gallons respectively last year.

In Jafarabad the Excise Revenue amounted to Rs. 12,679-3-11 against Rs. 12, 596-11-1 in the previous year. The quantity of liquor consumed was 2,583 gallons of 25° U. P. and 6,390 gallons of 60° U.P., as against 2,674 gallons and 5,571 gallons, respectively last year.

CHAPTER V.

REVENUE AND FINANCE.

56. The financial year of the State commences on 1st April and ends on 31st March. The details regarding the gross total receipts and

disbursements of the State during the year under report are given in Appendix XXII, of which the following is a summary :—

RECEIPTS.

57. From the above it will be seen that there was in this part of the State a marked decrease in receipts under the items A, B, C, and G. The decrease under A was mainly due to the fact that the amount of the sale proceeds of the occupancy rights in lands belonging to the State was less than that of the last year, and also on account of the lower rate of paddy collected as revenue or rent during the year under report. The causes of decrease under B and C have been given in paras 44 and 55, respectively of the report. The reason for the decrease under G was chiefly due to the fact that no Government Securities were sold during the year.

58. From the above table it will be observed that there was a marked decrease in disbursements under the heads C, F, H and L, in this part of the State. The decrease under C, was mainly due to the fact that the cost of allowances to Sardars was less on account of the lower rate of paddy and that the State had not to purchase Mowra liquor from Uran during the year under report. The decrease under F was due to the fact that last year the State had to pay the cost of His Highness's tour in Europe. The decrease under H was due to some retrenchment effected with a view to make a part provision for the erection of the High School Building and the Darbar Hall, during the next year. The decrease under L was due to large amounts expended by the Local Board last year on account of Water-Supply.

59. In Jafarabad there was a noticeable decrease under C, which was due to the compensation awarded by the State last year on account of acquisition of certain rights of an Inamdar.
